

## **Welcome to the Atlanta Metropolitan College Foundation**

---

The Atlanta Metropolitan College Foundation, Inc. is a Georgia non-profit corporation with the purpose of receiving, investing, and administering the private support of Atlanta Metropolitan College. A Board of Directors comprised of community and civic leaders and college administrators invests charitable gifts to maximize the gift's value to the college. The Foundation, a non-profit tax-exempt corporation, is organized under the laws of the state of Georgia and Section 501©(3) of the Internal Revenue code of 1986 as amended, and serves as the principal fundraising organization for the receipt and management of all private gifts and contributions to Atlanta Metropolitan College. The Foundation operates for the express purpose of supporting Atlanta Metropolitan College in fundraising, external friend building, establishing and building an endowment, and in addressing the academic priorities of the institution, while understanding and supporting AMC's mission, goals, and priorities.

The mission of the Foundation is to support and enhance the college by encouraging charitable gifts from alumni and friends leading to academic programs of excellence. This Margin of Excellence allows the college to build upon a growing reputation of quality and value beyond the traditional resources provided by state appropriations or student tuition and fees.

The Foundation serves as the college's gift receiving office for donors who wish to make charitable gifts to the Foundation on behalf of the college. For that reason, all checks, deeds, and negotiable instruments should be made payable to the AMC Foundation. The Foundation will provide a gift receipt suitable for tax purposes acknowledging each donor's gift.
