

About The Barbara Small Morgan Biological Sciences Scholarship Fundraiser
“Singing, Swinging, and Stepping at Sunset”

Dear Atlanta Metropolitan State College Supporter:

On Friday, April 27, 2018, we will host the third annual entertainment extravaganza *Singing, Swinging, and Stepping at Sunset* benefiting the Barbara Small Morgan Biological Sciences Scholarship. The Morgan Scholarship supports students enrolled in the biological sciences bachelor degree program at Atlanta Metropolitan State College (AMSC). This event will take place on the AMSC Campus Quad from 5:00p.m.-9:00 p.m., with seating and pre-event activities beginning at 5:00 p.m. Performances begin at 6:00 p.m. Past programs have been wildly successful—so much so that guests have been requesting a repeat performance this year. Please consider this letter as your invitation to join us and become a sponsor of the event.

Our goal for this event is to raise much-needed scholarship funds for outstanding biological sciences students. In June 2010, AMSC President Gary A. McGaha honored Dr. Barbara Small Morgan by awarding her the status of Professor Emeritus and establishing this endowed scholarship. The award recognizes Dr. Morgan’s 36+ years of service to the institution and her leadership as Chair of the Science and Mathematics Division as well as Interim Vice President for Academic Affairs. Dr. Morgan was the first biological sciences faculty member hired at AMSC and the founding member of the biology department.

Please help to grow the scholarship endowment by sponsoring this activity and making the Morgan Scholarship fund a part of your annual giving. Your support will help to ensure that Dr. Morgan’s legacy of excellence in science education will continue. Your gift will also expand opportunities for students pursuing Science, Technology, Engineering, and Mathematics (STEM) fields at AMSC.

Sponsorship opportunities are available. Please see the enclosure with suggested sponsorship levels and reply with your contribution [which is tax-deductible subject to tax laws] by **April 22, 2018**. Details on reserved seating, food services, and the featured performer are also included in this packet. Your presence and participation will make for an evening of fun and relaxation and help support deserving STEM students who attend this extraordinary college.

If you have questions, please contact the Office of Strategic Marketing & Advancement at 404.756.4666 or email Keel Rickenbacker at kickenbacker@atlm.edu. We look forward to seeing you on Friday, April 27th!

Sincerely,

Lauretta Hannon
Interim Vice President for Strategic Marketing & Advancement
Executive Director, AMC Foundation, Inc.
